THE VARIOUS CANVASSING BOARDS STILL COUNTING THE VOTES.

Technical Irregularities Discovered in Some Instances and the Returns Sent Back for Correction-The Exact Figures will Probably Not be Known for Several Days.

NEW YORK, Nov. 12.-The board of county canvassers resumed its session to-day. The room was filled with politicians and the lawroom was filled with politicians and the law-yers representing the republican and demo-eratic parties. Committees on protested and corrected returns were appointed. The can-vass of the first assembly district was begun. It was found, after proceeding a short way down the district, that the democratic elec-toral ticket was not properly filled in, and that there were elerical discrepancies or omis-sions. On metion the whole district was re-

sions. On motion the whole district was re-ferred to the committee ou corrected returns. Only thirty-nine counties have reported of-ficially up to 5 p. m. Of these nearly all have made some slight changes from their last pre-vious faures. The greatest variation was in Jefferson county, where Blaine gains 8. Blaine's total gains in the thirty-nine counties are 11 votes; his total losses? All the Cleve-land pluralities have remained unchanged. Blaine's net gain so far in the cauvess, there-love has been 4 votes. Accepting the figures platings net gain so far in the causes, there-lore, has been 4 votes. Accepting the figures of the county clerks for the rest of the coun-les of the state this makes Cleveland's plu-latity 1,276.

there were two less than in the police rotarial for Cleveland, and in the tenth ward one less for Cleveland, and in the tenth ward one less for Cleveland, are supported in the tenth ward one less far Cleveland. The board of canvassers of New York county stamined the returns of the first three assembly districts to-day. A tew differences from the press reports published on Wednesday morning were discovered, but nothing was found that will materially affect Cleveland's plurality, as published. It is estimated that Oswald Ottendorfer, who has fewer votes than any other democratic elector, may fall a hundred votes behind.

The Queens county supervisors completed the canvass of the electoral vote this morning. In the return of Oyster Bay a defect was found after the canvass, but not an error affecting the result of the vote as officially announced, which is as follows: Blaine, 8.46; Cleveland, 6.367; Butler, 270; St. John, 291. Cleveland, 6.367; Butler, 270; St. John, 291. Cleveland spurality, 1,922. Legal representatives of both parties were present.

pairfelly, 1,922. Logal representatives of both parties were present.

The board of canvessers of Albany county mot to-day, but made slow progress, and adjurated until noon to-morrow without completing the canvess. Before adjourning the board seemed to have agreed upon the following figures on the electoral ticket: Blaine, 17,698; Cleveland, 18,355; Butler, 985; St. John, 312. Republicans and democrate both say that these figures will not be changed. The canvessers did not certify to them, but passed to the consideration of the county ticket. The official results will be aunounced to-morrow after 1800th.

A change favorable to Mr. Blaine of 233 votes in the seventeenth election district of the second assembly district, as against the press returns published on Wednesday morning last, was made by the board of canvassers of this county to-day, but out a careful comparison made between each of the election districts of the police returns and these of the press it has been found that the difference will be made up in the districts to be canvassed, except, possibly, on the name of Oswald Ottendorfer, who runs behind the other electors on the democratic ticket.

BEFFAIO, N. Y., Nov. 12.—The supervisors of Eric county met yesterday at the county clerk's office and were constituted a board of canvassers. Mistakes were found in some of the wards as to the proper way of writing in the vote, but nothing was found that would show fraud or change a single vote. The board will be occupied some days.

WORK ON THE FLATS.

Operations Under the Various Contracts-The

Great Dredge Launched. The operations upon the river flats for October are detailed in a report by Col. P. C. Haines. He states that the formation of a bank along either side of the sower canal was in pro-gress to retain the material dredged from the gress to retain the material dreaged from the Virginia channel, preventing its flowing into the sewer. Work was continued under the contract with the D. E. Culver company for dredging and embankment along the margin of the large tidal reservoir, the amount dredged and deposited being 17,911 cable yards; 2,561 cubic yards of stone were deposited along the margin of this reservoir and along the line of the Washington channel.

Work was in progress along the Virginia channel below Long bridge, at the lower end of the embankment under contract with F. C. Somers, 7,612 cubic yards being dredged. The dredging and embankment along the Washington channel wall line, under Somers's contract, progressed favorably. The trench is partially formed to a point 3,285 feet below Long bridge. The amount dredged during the month was 29,235 cubic yards.

The contractors for dredging in the Washington channel, Messes, Benson & MeNec, of San Francisco, have launched the hull of their lirst dredging machine, and are engaged in forming a cross embankment, about 2,600 feet below Long bridge, to retain the dredged material. Virginia channel, preventing its flowing

low Long bridge, to retain the dredged ma-terial.

Inring November work on the embank-ment, along the sewer canal, will be con-tinued. The dredging and embankment along the margin of the large that reservoir, and along the wait lines on section 3 will also be continued. The small that reservoir near the foot of Neventeculic street has been laid out, and work on it will be commenced early in the month. The contract for removing addi-tional rocks in Georgetown harbor has been awarded to E. R. Lowe, or New York city, at 57,577. The work will be begun next week and completed by August text.
